1. The amendment filed 11/14/05 have been entered and made of record.

Specification Objection under 37 CFR 1.73

(AC)

2. The summary of the invention is objected to because the claimed features of "comparing the message length of the received message to the maximum message length"; and "modifying the transmission of the message when the message length of the received message exceeds the maximum message length by sending a concatenated message and adding a header to the message" is not disclosed in the summary of the invention. The abstract is objected to under 37 CFR 1.72(b) because it does not describe the invention.

(AC)

Appropriate correction is required. of the allowed claims.

Drawings

3. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the "comparing the message length of the received message to the maximum message length"; and "modifying the transmission of the message when the message length of the received message exceeds the maximum message length by sending a concatenated message and adding a header to the message" must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure

is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.
